

AAMS Tools & Resources

All American Medical Staffing equips every nurse with a comprehensive set of tools, guides, and support systems designed to ensure Survey-Ready performance, clinical excellence, and seamless field operations. These resources help you work confidently, efficiently, and in full compliance with agency and regulatory standards.

Nurse Toolkit

The AAMS Nurse Toolkit includes essential documents and reference guides that support your daily workflow. Each item is designed to reinforce accuracy, promote compliance, and standardize care delivery across all agencies.

Included Tools:

- **Survey-Ready Nurse™ Checklist**

A quick-reference guide outlining the daily habits, documentation requirements, and communication expectations that ensure you remain survey-ready at all times. This checklist reinforces consistent practice and compliance-driven decision-making.

- **Documentation Standards SOP**

A detailed Standard Operating Procedure that outlines the expectations for all clinical documentation—including OASIS assessments, visit notes, care coordination logs, and discharge processes. This SOP ensures your documentation meets regulatory, quality, and agency standards.

- **Admission & Visit Templates**

Standardized templates for Start of Care, Resumption of Care, Recertification, and Routine Visits. These templates help you capture all required elements clearly and consistently, reducing errors and improving efficiency.

- **Medication Reconciliation Guide**

A step-by-step reference for completing accurate medication reviews, updating orders, identifying discrepancies, and communicating changes to providers. This guide supports safe patient care and compliance with CMS Conditions of Participation.

- **Communication Scripts**

Pre-written communication aids for speaking with patients, caregivers, physicians, and agency staff. Scripts support professionalism, clarity, and regulatory-aligned communication, especially when reporting status changes or clarifying orders.

• Red Flag Guide

A quick-access tool for identifying urgent clinical concerns, safety issues, or documentation red flags. This guide helps you respond appropriately and escalate situations in a timely and compliant manner.

Support Contacts

To ensure you feel supported in the field, AAMS maintains a clear communication structure. Each department plays a specific role in your success.

• Success Manager — Scheduling & Operations

Your primary point of contact for:

- Scheduling coordination
- Visit assignments
- Agency communication
- Operational support
- Workflow or process questions

The Success Manager ensures you have everything needed to complete your visits smoothly and efficiently.

• QA Team — Documentation & Compliance

Handles:

- OASIS review
- Documentation quality checks
- Compliance guidance
- Feedback on survey-readiness
- Corrective action or retraining support

This team helps you maintain high-quality, error-free documentation aligned with regulatory standards.

• Admin Team — Payroll, HR & Onboarding

Responsible for:

- Timesheets and payroll
- HR documentation
- Employment questions

- Credentialing and onboarding requirements

They ensure you remain up-to-date, compliant, and supported administratively.

- **CEO/Founder — Escalations & Leadership**

Available for:

- High-level concerns
- Agency escalations
- Professional guidance
- Leadership-level support

The CEO ensures alignment with AAMS values, quality expectations, and long-term career success.
