

## **Performance Expectations**

As an AAMS Registered Nurse Consultant & Field RN, your performance is evaluated on your ability to consistently deliver high-quality, compliant, and patient-centered care. The expectations below outline the standards required to maintain Survey-Ready performance at all times.

### **Survey-Ready Documentation**

Your documentation directly reflects the quality and compliance of care delivered. All field nurses are expected to demonstrate Survey-Ready standards with every note and submission.

#### **Requirements:**

- **Completed the same day**  
All OASIS, visit notes, care coordination logs, and communication entries must be submitted on the day the visit occurs.
- **Error-free and complete**  
Documentation must be clear, accurate, internally consistent, and fully validated before submission.
- **Meets all regulatory and agency standards**  
Notes must reflect medical necessity, patient condition, interventions, teaching, and measurable outcomes in alignment with CMS and agency policy.

### **Professional Conduct**

As an AAMS representative in the field, your professionalism impacts patient experience, agency relationships, and regulatory readiness.

#### **Expectations:**

- **Strong, timely, and respectful communication** with AAMS, agencies, physicians, and patients.
- **Positive and compassionate patient interactions** that promote trust, safety, and satisfaction.
- **Full compliance with agency policies and procedures**, including confidentiality, safety, and regulatory guidelines.

### **Operational Standards**

Operational reliability is essential for maintaining agency satisfaction and guaranteeing continuity of care.

## **Standards Include:**

- **On-time visits** — Arriving during the scheduled time window and notifying all parties of delays.
- **On-time documentation submissions** — Same-day completion with no need for repeated corrections.
- **Immediate reporting of:**
  - Changes in patient condition
  - Safety concerns
  - Barriers to completing visits
  - EMR access or documentation issues

## **Evaluation & Feedback System**

AAMS utilizes a structured evaluation system to monitor performance, ensure compliance, and support your success in the field.

### **30-Day Review**

Focus Areas:

- **Integration** into AAMS workflows, communication standards, and agency expectations
- **Reliability** in scheduling, responsiveness, and follow-through
- **Documentation quality** including accuracy, completeness, and timeliness

The purpose of this review is to ensure you are fully acclimated and to identify areas where support may be needed.

### **90-Day Evaluation**

Focus Areas:

- **Survey-Ready Status Verification** — Ability to consistently produce survey-ready documentation without errors
- **Clinical Excellence Assessment** — Demonstration of strong clinical judgement, patient education, and regulatory alignment
- **Final Determination for Long-Term Placement** — Confirmation of AAMS expectations and readiness for full independent practice

## **Ongoing Coaching & Development**

AAMS is committed to your continued success and professional growth.

You will have access to:

- **Quarterly compliance and documentation updates**
- **Training and micro courses through ACE U**  
(OASIS, wound care, medication review, skilled need documentation, etc.)
- **Performance feedback from the QA team** to support continuous improvement and audit readiness
