

Orientation Training Modules

Welcome to All American Medical Staffing™ comprehensive orientation program. This training series is designed to equip you with the knowledge, skills, and standards required to deliver excellence in home health, hospice, and home care services across the United States.

Module 1 – AAMS Fundamentals

Begin your journey by understanding the foundation of All American Medical Staffing™. This module introduces the core principles that define who we are and what we stand for in the home healthcare industry.

Mission, Vision, Core Values

Discover the driving principles behind our commitment to excellence and how they shape every decision we make in patient care and professional practice.

What It Means to Be an All American Nurse

Understand the unique identity and professional standards that distinguish AAMS nurses as elite, survey-ready healthcare professionals.

Agency Expectations

Learn the specific performance standards, behavioral expectations, and professional commitments required of every team member.

Professional Standards & Brand Representation

Master how to represent the AAMS brand with integrity, professionalism, and excellence in every patient interaction and clinical setting.

Module 2 – Compliance & Clinical Excellence

Compliance is the cornerstone of quality care and agency protection. This module provides comprehensive training on federal and state regulations, accreditation standards, and documentation practices that ensure zero-deficiency performance.

1

State & Federal Requirements

Navigate the complex landscape of healthcare regulations governing home health and hospice services across different jurisdictions.

2

Home Health Medicare CoPs

Master the Conditions of Participation that define Medicare-certified home health agency operations and nursing practice standards.

3

HHSC (Texas) TAC 558 Regulations

Understand Texas-specific regulatory requirements for licensed home health agencies under Title 26, Chapter 558.

4

CHAP, ACHC, Joint Commission Standards

Learn the accreditation criteria used by major accrediting bodies to evaluate agency quality and compliance performance.

5

Audit-Proof Documentation

Develop documentation skills that withstand scrutiny from ANY regulatory body, ensuring complete, accurate, and defensible clinical records.

6

Top Deficiencies & Prevention

Identify the most common survey findings and implement proactive strategies to avoid compliance violations before they occur.

Module 3 — Patient Visits & Professionalism

Excellence in patient care extends beyond clinical skills—it encompasses preparation, communication, safety, and professional presence. This module covers the complete visit lifecycle and the behaviors that define exceptional home healthcare nursing.

Visit Workflow Mastery

Pre-visit preparation: Review patient records, verify visit parameters, gather supplies, and confirm logistics.

During the visit: Execute clinical assessments, interventions, and education with precision and compassion.

Post-visit completion: Document thoroughly, communicate findings, and ensure continuity of care.

Professional Excellence Standards

Safety & infection control: Implement CDC guidelines and agency-specific protocols to protect patients and staff.

Communication protocols: Maintain clear, respectful, and therapeutic communication with patients, families, and the care team.

De-escalation & bedside presence: Handle challenging situations with professionalism, empathy, and clinical judgment.

HIPAA & confidentiality: Safeguard protected health information in all forms and settings without exception.

Module 4 – Documentation & Submission Standards

Documentation is not just a requirement—it's the legal record of care, the basis for reimbursement, and the evidence of quality. AAMS maintains the highest documentation standards in the industry, and every nurse must meet these non-negotiable expectations.

01	02	03
Correct & Complete Documentation	Same-Day Submission Requirement	QA Review & Correction Process
Every chart must be accurate, thorough, and survey-ready—meeting all regulatory requirements and clinical standards without exception.	All visit documentation must be submitted on the day of service. Late submissions compromise compliance, reimbursement, and agency operations.	Understand how quality assurance reviews your documentation and respond promptly to correction requests to maintain excellence standards.
04	05	
Templates, Forms & OASIS-E Guidance	Electronic Visit Verification (EVV)	
Master agency-approved templates, visit note formats, and OASIS-E assessment completion for consistent, compliant documentation.	Where applicable, ensure proper EVV compliance for all visits, including accurate time stamps, location verification, and service documentation.	

Module 5 – Visit Excellence & Clinical Guidelines

Clinical excellence requires mastery of specialized nursing skills, from admission assessments to ongoing care coordination. This module focuses on the high-impact competencies that distinguish All American nurses in the field.

Admission Visit Mastery

Perfect the comprehensive admission assessment process, including OASIS-E completion, care plan development, and patient education that sets the foundation for successful outcomes.

Medication Reconciliation

Conduct thorough medication reviews, identify discrepancies, educate patients on proper administration, and document with precision to prevent adverse events.

Care Coordination

Communicate effectively with physicians, therapists, social workers, and family members to ensure seamless, integrated care delivery across all providers.

Patient Education Standards

Deliver clear, culturally appropriate education on disease management, medications, safety, and self-care using teach-back methods to confirm understanding.

Red Flags & Escalation Protocols

Recognize clinical warning signs requiring immediate intervention, understand escalation pathways, and know when to notify physicians or emergency services for better patient safety and outcomes.

Welcome & Introduction

You are about to join an elite team of healthcare professionals who represent the highest standards in home health, hospice, and home care staffing. All American Medical Staffing™ is built on a foundation of excellence, and you are now part of that legacy.

Charlene Facia Taylor

Chief Executive Officer

All American Medical Staffing™

Welcome Letter from CEO

Welcome to **All American Medical Staffing™**, where excellence is not optional—it's the standard. You are joining a company built on precision, integrity, and an unwavering commitment to raising the bar in home health, hospice, and home care staffing across the United States.

Every member of our team plays a critical role in delivering the highest quality care and compliance-driven performance. We don't just fill shifts—we provide solutions that protect agencies, elevate care standards, and ensure patient safety.

Your training, professionalism, and dedication will set you apart as a Survey-Ready Nurse™. I'm excited to see the impact you will make.

Our Mission: Elite, Survey-Ready
Nursing Care

Provide elite, Survey-
Ready Nurses™ who
deliver impeccable care,
flawless documentation,
and compliance-driven
performance—every
single time.

Immediate Staffing Relief

Respond rapidly to agency staffing needs with qualified, credentialed professionals ready to deliver excellence from day one.

Highly Trained, High-Performing RNs

Every nurse undergoes comprehensive training in compliance, documentation, and clinical excellence before their first assignment.

Survey-Ready Documentation & Care Delivery

Our nurses produce documentation that meets or exceeds all regulatory standards, protecting agencies during surveys and audits.

Zero-Deficiency Preparation

We train nurses to prevent common survey deficiencies through proactive compliance and clinical excellence in every patient interaction.

Our Core Values

These values guide every decision, every patient interaction, and every professional relationship within All American Medical Staffing™. They define who we are and the standard of excellence we uphold without compromise.

	Integrity & Excellence in Care Deliver top-tier, survey-ready nursing services with precision, honesty, and unwavering commitment to the highest professional standards in every clinical encounter.
	Compassion in Action Ensure dignity, respect, and quality care for every patient, treating each individual with the kindness and professionalism they deserve in their most vulnerable moments.
	Innovation & Efficiency Use forward-thinking systems, processes, and technologies to streamline staffing operations, improve care delivery, and enhance outcomes for agencies and patients alike.
	Partnership for Success Build long-term, reliable relationships with healthcare agencies that drive mutual growth, operational excellence, and sustained success in competitive markets.
	Unwavering Commitment Survey-Ready Nurses. Every Admission. Every Time. This is our promise and our standard—no exceptions, no compromises, no excuses.

Every nurse who joins this team becomes part of a mission bigger than a shift, a visit, or a chart. You become part of the system that keeps agencies compliant, patients safe, and care standards elevated across the United States.

Excellence. Compliance. Results.

Brand Promise

Every Visit. Every Shift. Every Chart.

This is more than a tagline—it's the commitment we make to every agency partner and every patient we serve. Excellence isn't occasional; it's operational.

Protecting Reputation & Revenue

Compliant, survey-ready admissions that protect your agency's reputation, ensure reimbursement, and maintain the operational integrity required for long-term success.

❑ **The AAMS Difference:** When you hire an All American nurse, you're not just filling a shift—you're investing in compliance, quality, and peace of mind. Our nurses are trained to perform at the highest level, document with precision, and represent your agency as if it were their own.

Understanding the AAMS Brand

Who We Serve

All American Medical Staffing™ partners with a diverse range of healthcare organizations across the United States, providing elite nursing professionals who understand the unique needs and regulatory requirements of each care setting.

Home Health Agencies

Medicare-certified and private-pay home health organizations requiring skilled nursing services, OASIS-E expertise, and survey-ready documentation for comprehensive patient care.

Hospice Agencies

End-of-life care providers needing compassionate, skilled nurses trained in pain management, symptom control, and family support during the most sensitive times.

Personal Assistance Services (PAS) / Non-Medical Home Care

Organizations providing custodial care, personal assistance, and non-medical support services requiring skilled oversight and care coordination.

Hybrid & Multi-Service Organizations

Integrated healthcare providers offering multiple service lines who need versatile nursing professionals capable of delivering excellence across all care models.
